## Program Notes

A walk in a local, state or national park is a relaxing and refreshing venture for most people. The National Park Service was created on August 25, 1916, by Congress through the National Park Service Organic Act and is an agency of the United States Department of the Interior. The National Parks alone bring in over 208 million visitors each year, and the park with the highest number of annual visitors is the Blue Ridge Parkway which passes just two miles from the composer's residence. Over 15 million visitors visit this national treasure each year. The piece is set in a tranquil mood and is intended to illustrate a calming and peaceful visit to any park.
